Dear Chairman Sonju and Members of the Committee:

My name is Jenifer Gursky and I am a student at the University of Montana, representing the Associated Students of The University of Montana. ASUM currently represents over 15,000 student and maintains a strong commitment to diversity amongst our campus members.

During this legislative session, there have been bills particularly designed to limit the perceived overreaching bounds of the federal government. House Bill 516 does exactly this as it ties the hands of our local law makers who attempt to represent the dynamic cultures and needs of each community of Montana. House Bill 516 exerts a state government control over the local wishes of Montanans. Further, House Bill 516 denies not only the rights of communities to meet local constituent needs, but denies the community of Missoula and the community of The University of Montana which resides in Missoula to make decision appropriate for their community.

The University of Montana and ASUM have worked in partnership in recent years to decisively create an environment that not only celebrates diversity, but identifies how what a **safe** community for diversity looks. The Missoula City Ordinance Number 3428 is a 'non-discriminatory' ordinance, adding gender expression, gender identity, and sexual orientation to a diversity definition that begged for r community to acknowledge. Sitting beside student who feel safe to ride a bus, eat in a restaurant, participate in city sports, and rent an apartment means we are able to sit beside a variety of student who enhance our education experience. They are students, neighbors, friends. ASUM acknowledges our City Ordinance as one step closer in solidifying The University of Montana's commitment to diversity and a safe and equal learning environment.

House Bill 516, while it threatens to take away new city legislation that held a favorable vote of 10-2, threatens to strip local autonomy. Missoula is a thriving, divers culture that doesn't need a state mandate to say who we should protect – and we have gone further than the current state mandate, not repealing those that the State of Montana currently recognizes.

The Associated Students of The University of Montana oppose this bill and unanimously passed Senate Bill 18-10/11 on February 16, 2011. The governing body of 15,000 students STRONGLY appose HB 516.
